IN BULK
SEASON OF 1929

"At Your Service"

For the 33rd Year

The Page Seed Co.
Greene, New York

1929 WHOLESALE PRICE LIST

We are glad to again wish you a Happy and a Prosperous New Year. We have done so for the past 33 years.

This booklet gives you our Wholesale price on such items of seeds, as we are able to offer, to you as a dealer. For the benefit of those who receive this Price-List for the first time we wish to state that our business is Wholesale only. We do not conduct a retail store, nor do we mail out catalogues to your customers. We sell to the dealer, who in turn sells to the user. The prices which are noted in this Price-List are those which prevailed at the time we sent the List to the Printer and are not guaranteed. They are subject to change without notice. All orders will be accepted only at the price which prevails on the date which your order is received, and subject to stock being unsold. Whenever possible, because of quantity ordered, we will be glad to enter your order at a reduced price.

We regret that there are many items, that we are unable to supply, because of crop shortage, or prior Sales. We trust that from the list offered, you will be able to make up an order and send to us on the handy order form enclosed.

We will be glad to quote you on your next season's requirements at any time, and expect that our representative will call upon you sometime during the season soliciting your order.

Garden Guides are still available for you to distribute to your trade. Let us know how many you can use, and we will be glad to forward them to you. We would like to call your attention to our offer on Lawn Grass, and to the Pest Controls. We believe they are worth while.

Please note that our Terms of Sale are:—Vegetable or Garden Seeds, Net Cash June first, 1929 to all firms of approved credit rating, others C. O. D. A discount will be allowed if the invoice is paid within 10 days from date of the invoice. Onion Sets, Field Peas, Grass Seed, Etc., are Net Cash with no discount. Seed Corn, Millet, Oats, Etc. are draft with Bill of Lading. All F.O.B. Greene, N.Y. Bags are charged at value.

As members of the American Seed Trade Association, "We give no warranty express or implied as to purity, germination, description, quality, productiveness, or any other matter of seeds, plants, or bulbs we sell, and we will not be in any way responsible for the crop."

The Page Seed Company

Also known as White Sweet German.	
White Ruta Baga	35
Yellow Swede	35
Yellow Ruta Baga	35
Budlong's White Rock (Breadstone) ..	35

Page's Standard Quality Flower Seeds

The slogan used to be "Garden for Profit," and now it is "Garden for Pleasure." A person with a flower garden can also follow the slogan "Say it with Flowers." Nothing helps a home garden or even the looks of the grounds, as plenty of flowers growing, and they not only add to the looks, but they furnish plenty of pleasure.

LAWN GRASS

The best is none too good. There is no use in planting weeds and inert matter. Seed that will produce fine lawns is what the house-holder wants. Weeds will come in regardless, and better fertilizer can be bought than that which is found in many grass seed mixtures. We aim to put out seed for lawns that will be as near pure seed as possible. Buy and sell for quality not for price.

Greene Park Mixture—As good as the best and better than most mixtures on the market. It is one of our standards. Per 100 lb.....\$ 25 00 30

Marvelawn—A fine mixture and one that sells. See back cover. Per 100 lb..... 21 00 25

Page's Fine Mixed—A cheaper grade for those that are not so particular, yet grades high, and will produce results. Per 100 lb.. 16 00 20

Page's Shady Park Mixture—The kind to be used in shady places, and where other mixtures do not do well. Per 100 lb..... 32 00 35

Dutchess County	Mammoth Yellow
Genesee Valley	Schoharie County
King Phillip	Sanford White

CROW REPELLANT

Over \$1,000,000 is lost every year on account of Crows and other pests pulling corn while it is germinating, sprouting and rooting. The great extent of this loss is being given more consideration each year by leaders in farming methods, who want the biggest return in bushels grown for the effort, and money put in. Corn can be protected during the period when it is most easily damaged. Crows and other corn pulling birds, Moles, Gophers, Woodchucks, Squirrels, etc., cause havoc in many corn fields. Now this can be done away with. By use of Crow Repellants, loss of seed and labor of replanting can be made a thing of the past. They aid and hasten germination, and protect the seed from rotting in the ground. It does not kill, but keeps the pests away, and prevents destruction.

Stanley's Crow Repellant

Stanley's Crow Repellant insures against loss. It cost only 15 to 20 cents per acre depending upon the quality of seed used in planting. It will not clog any planter. Is non-poisonous. The large cans retail for \$1.50 and the small for \$1.00. One small can is enough for one bushel of corn.

Large Size Cans
Doz \$12.60, $\frac{1}{2}$ doz. \$6.40

Small Size Cans
Doz. \$8.40, $\frac{1}{2}$ Doz. \$4.30

Net Cash f.o.b., Greene

Cro-Tox

Protects from Crows, Pheasants, Black-birds, Squirrels, Woodchucks, and other pests of the corn field. Makes healthier stalks, and larger yields. Packed in cases of 14 cans to the dozen. Large cans retail for \$1.50 and the small for \$1.00. One small can is enough to treat one bushel of corn.

Large Size Cans
Per Doz. of 14 Cans \$12.00

Small Size Cans
Per Doz. of 14 Cans \$8.00
Net Cash—F. O. B. Greene.

Display Jars

Increase your sales by using our Display Jars. These will show off your small seeds in a very attractive manner. The jars with the seeds in them will attract customers who wish to purchase more than is contained in a 10 cent packet. The jars can be used year after year for this purpose, and during the season when you do not sell seeds, you can use them to store your surplus seeds. The stopper is of ground glass, and prevents all vermin from entering, and destroying the seed. The jars are $9\frac{3}{4}$ inches high and $3\frac{1}{2}$ inches square, outside measurements. Order today and be ready to display your seeds to your customers, thus increasing your sales.

Price per doz. F. O. B., Greene, \$4.50

Seed Bags and Envelopes

We are able to supply your needs for bags and envelopes for the seeds you sell in bulk. We have several sizes, and know that you will find them very convenient. They are made of heavy manilla paper so as to withstand rough handling.

These bags and envelopes can be purchased plain or printed. We will be glad to print your card on them, if the copy is furnished.

	Blank	Printed
1 ounce envelopes per thousand....	\$1.50	\$2.50
2 ounce envelopes per thousand	1.60	2.60
$\frac{1}{2}$ pint bags per thousand	3.00	4.00
1 quart bags per thousand	4.00	5.00
$1\frac{1}{2}$ quart bags per thousand	4.50	5.50

Mouse Seed

A new product, not for growing mice, but for ridding the premises of them. A positive exterminator, safer and more convenient to handle than traps or any paste or powder preparations. Safest where there are children or pets. Packed 14 packages to the dozen, or carton. 12 cartons to the case. Each package retails for 25 cents. The carton is of the display type.

Carton \$2.00

Case \$23.00

Snarol

The National Pest Control

Science has provided a new, safe method that exterminates snails, cutworms, slugs, grasshoppers, sowbugs, earwigs, etc. without fuss. Snarol is made to kill the pests that ruin lawns and gardens in the quickest, most convenient, surest, most effective way, without damage from itself. It is very popular with professional gardeners and nurserymen. It is a ready prepared meal that is broadcast on the ground around the vegetation. The pests eat the meal and are quickly destroyed. Snarol will not deteriorate from rain or sprinkling. It is non-injurious to vegetation.

Prices, net cash, f.o.b. Greene. (Not mailable)

Antrol

The National Ant Control

Ants can be destroyed in their nests. The Antrol System is adapted to any size house or garden, and quickly destroys all species of sweet eating ants. It is composed of small glass containers and a special formula for sirup. The containers are partially filled with the sirup, placed around the house or along trails. The ants smell the sirup, eat it, and then transmit the poison to the queen in the nest. Soon the entire ant coloney is destroyed. Order as many sets as you think you can sell, and provide for extra containers and bottles of sirup. (Not mailable)

12 Sets Senior Size to case\$15.00
 12 Sets Junior Size to case 8.00

MARVELAWN

FOR THE LAWN

Our lawn grass seed mixture "Marvelawn" is put up in cartons, either pint or quart, and is also put up in bags to be sold in bulk. We consider "Marvelawn" one of the best mixtures for lawns in any community. The "Marvelawn Mixture" is made up of Red Top, Kentucky Blue Grass, and Meadow Fescue for they are slow growing, and are lasting. We also put in a little Timothy and Rye Grass to provide grass in a short space of time, and to help the other slow growing grasses.

"Marvelawn" will show better than 90% pure seed. Compare Marvelawn with other mixtures sold, and we believe that you will find that it ranks with the Best. Sell Marvelawn and you will obtain the trade for lawn grass in your community. Order today if your order is not already placed, or even order some in addition. Use the handy order form enclosed with this Price List.
